

CEF Symposium and Assembly

Thursday, 13 November 2008

MPI of Biophysics, Lecture Hall (0.10)

11.00 – 13.05 Candidates for Adjunct CEF Investigator Positions

Welcome and introduction (Werner Müller-Esterl)

- 11.00 Markus Bohnsack
Institute of Molecular Biological Science, Goethe University
"Biogenesis and nuclear export of the translation machinery"
- 11.25 Jens Bredenbeck
Institute of Biophysics, Goethe University
"Multidimensional IR spectroscopy: Biomolecular dynamics, interactions and signal propagation in realtime"
- 11.50 Alexander Gottschalk
Institute of Biochemistry, Goethe University
"Macromolecular assemblies at the synapse – optogenetics and beyond"
- 12.15 Metello Innocenti
Institute of Biochemistry II, University Hospital, Goethe University
"Actin dynamics in membrane protrusion and invagination"
- 12.40 Thomas Meier
Department of Structural Biology, Max Planck Institute of Biophysics
"Switching the gears in ATP synthase rotor research"
- 13.05 Break

13.30 – 16.00 CEF Assembly
