

# CEF Adjunct Investigator Symposium

**Tuesday 18 December 2012**

**Venue:** Biologicum, Lecture Hall 2, B -1.203  
Max-von-Laue-Str. 13, 60438 Frankfurt

---

- 13:00 Welcome and introduction
- 13:05 **Bo-Jui Chang**  
***“Development and application of coherent structured illumination light sheet fluorescence microscope”***  
Institute of Cell Biology and Neuroscience,  
Buchmann Institute of Molecular Life Sciences  
Goethe University Frankfurt
- 13:35 **Andreas Ernst**  
***“Engineering of Protein-Protein Interaction Interfaces for the Modulation of Intracellular Enzymes”***  
Centre for Cellular and Biomolecular Research,  
University of Toronto  
(From Jan 2013: Institute of Biochemistry II, Goethe University Frankfurt)
- 14:05 **Julian Langer**  
***“Membrane mass spectrometry”***  
Department of Molecular Membrane Biology  
Max Planck Institute of Biophysics
- 14:35 **Thomas Meier**  
***“ATP synthase and beyond: membrane protein complexes in action”***  
Department of Structural Biology  
Max Planck Institute of Biophysics
- 15:05 **Andreas Vlachos**  
***“Studying the molecular mechanisms of synaptic plasticity in organotypic slice cultures”***  
Institute of Clinical Neuroanatomy, Neuroscience Center  
Goethe University Frankfurt
- 15:35 Close
-
