

Buchmann Institute
for Molecular Life Sciences

GOETHE
UNIVERSITÄT
FRANKFURT AM MAIN

Inauguration: Frankfurt Centers for Advanced Light and Electron Microscopy

Scientific program

9 February 2017, 13:00

Biologicum, Campus Riedberg, Lecture Hall H1
Max-von-Laue-Str. 13 , 60438 Frankfurt am Main, Germany

Introduction: **Achilleas Frangakis** and **Ernst Stelzer**

- 13:00 Owe Philipsen**, Dean of the Department of Physics, GU
Opening speech
- 13:15 Kay Gruenewald**, Univ. Hamburg
"Structural cell biology of virus-host interactions"
- 13:45 Christina Cardoso**, TU Darmstadt
"Lifting the veil on the duplication of
the human genome"
- 14:15 Matthijn Vos**, ThermoFisher, Eindhoven
"The girl with the selfie-stick"
- 14:45** *Coffee break*
- 15:15 Enrico Schleiff**, Vice President, GU
- 15:30 Jonas Ries**, EMBL, Heidelberg
"Towards structural cell biology using
superresolution microscopy"
- 16:00 Harald Plank**, Graz University of Technology
"3D Nano-printing via electrons"
- 16:30 Elisa May**, Univ. Konstanz
"Hypes and hopes around (imaging) core facilities"
